2 of 2 review helpful The book I've been looking for for years By John A Brissette I rarely give a book 5 stars 4 often but 5 is for those life changing affirming pieces that are rare I wish I could give this book 6 As a Creole a term of some ambiguity who wasn't born or raised in NOLA but had family in Louisiana NOLA has always been a cultural touchstone A Mecca or Jerusalem for me living in a place where Every place has its history But what is it about New Orleans that makes it more than just the sum of the events that have happened there What is it about the spirit of the people who live there that could produce a music a cuisine an architecture a total environment the mere mention of which can bring a smile to the face of someone who has never even set foot there What is the meaning of a place like that and what is lost if it is lost "Insightful hellip a sensory paradise Why New Orleans Matters is a celebration of the spirit of New Orleans" BookInfo.net "An enjoyable meander through what used to be called 'the city that care forgot'"
